Dr. P. well, who has held his project for raising a cavalry regiment in restraint waiting the progress of events, has opened a recruiting office at La Crosse, believing the time has arrived when volunteers will be accepted. Maj. St. venson, a veteran of the civil war and of the regular army, is in charge.

INDIANS WANT TO FIGHT

Two Companies of Oneidas Wish to Help to Free Cuba

Appleton, Wis., April 21—Joseph Metoxen, one of the head men of the Oneida Indians on the Oneida reservation, was in the city this morning trying to make arrangements for enlisting two companies of 100 men each which he has organized among the young Indians on the reservation. Metoxen says that the two companies have chosen no officers, preferring to rely upon experienced G. A. R. men or militiamen who understand fighting in white man's style. The companies are to be accompanied by the Oneida brass band of some sixteen pieces, the members of which hope to be enlisted as musicians, but failing in this will enter the ranks and keep their unofficial band organization. Metoxen says that the companies have been drilling as best they could under the direction of two Indian G. A. R. men. If war is declared he says he will march his men to the recruiting office at Milwaukee if he cannot get his men enlisted nearer. He has received a letter from Jonas Metoxen, the famous fallback of the Carlisle Indian school, saying that the boys at that college are wild for war and want to go to the front en masse.

BIG DRIVE OF LOGS.

Thirty Million Feet Come Down the Menominee to Marinette

Marinette, Wis., April 21—Thirty million feet of logs came sailing down the Menominee river yesterday morning from the Pemene dam, seventy miles from here. They are now all above the marking gap near this city, and the river for four miles is blocked solid with logs piled two and three deep.

This big flood of timber was due to the raising of the gates of the Pemene dam. It had been closed for three days until a 17-foot head of water was developed. Two hundred feet of gates were then raised within an hour and the accumulated water swept down the river, lifting all the logs on the banks and shores and bringing them to the mills in this city. This notwithstanding the fact that the stream is the lowest known in years and is practically at a summer's drought stage.

The Pemene dam is said to be one of the largest and best in the world, and the driving feat of yesterday is considered almost unsurpassable on any other logging stream in the country.

SICK FROM AN INSECT'S STING

Son of Gov. Scofield Suffering From Blood Poisoning at Marinette

Marinette, Wis., April 21—Gov. Scofield arrived here yesterday to see his son George, manager of the Scofield Lumber company, who underwent an operation on Tuesday to alleviate a peculiar affliction. During his recent visit to Mexico he was stung by an insect of some kind. The injury did not prove very troublesome at first, and he failed to consult a physician. When he arrived home he was in a sickly condition and was soon confined to his bed with what appeared to be a fever. But his sickness was finally traced to his arm, and it was found that the insect had deposited larvae there and it had developed under the skin into little worms, which caused blood poisoning. He is still in a serious condition, although the operation yesterday removed the insect growth.

TROOPERS GOING TO THE SEAT OF WAR.

TWO TRAIN LOADS OF CAVALRY FROM MONTANA.

They Will Pass Through Janesville Tomorrow—Eighty-one Cars of Horses and Nineteen of Men—The Men are a Hearty Looking Lot of Trained Soldiers.

Two special trains will rumble through Janesville tomorrow leaving the Tenth United States cavalry to the east. The regiment left Montana yesterday. It is not known how many men are being moved, but the train schedule calls for eighty-one cars of horses and nineteen cars of men. They came as far as St. Paul over the Great Northern and Northern Pacific, and will be brought to Chicago in three sections, one section going by way of Beloit, the other two by way of Janesville.

At St. Paul the troopers received an ovation, thousands of citizens turning out to bid them God speed. The men are a hearty looking lot, and are inured to the hardships of frontier life. Their past experience on the plains of the west will serve them in good stead during the campaign they will doubtless soon undertake in Cuba.

HIGH SCHOOL'S BALL TEAM

It Contains Good Players Who Seem Certain to Make a Record

The High school baseball team is complete. Roy Palmer is captain and will be the regular pitcher, while Carr, one of the new men, will act as substitute. Bonesteel will catch, thereby forming the same battery as last year. Dougherty will probably play short, for he is one of the quickest and surest players on the team. The bases will be very ably covered by Casey, Weisend and Smith. Kearney, the new man, will play left field, and is a great addition to the team. Carpenter and Mathews are well suited to play the other field positions, while Farmer, Richardson and Kimball are players not to be ignored.

There is a strong but friendly rivalry between the players as to who shall be the winner of the beautiful medal to be given to the one obtaining the best batting record. This has ever been Janesville's weak point, and Rev. Mr. Denison has presented the medal with the idea of improving it. The result can already be noticed. Fred Blakely has supervised the training of the team.

The opening game occurs at Athletic park at 8:30 p. m. Saturday, April 23. A large attendance is expected for all home games. The schedule is as follows:

A TRAVELING MAN

Gives Some Valuable Hints Regarding the

Mr. R. W. Winchendon, a commercial traveler from Birmingham, whose business keeps him almost constantly on the road, relates in the Sunday News the dangers to health resulting from constant change of residence and the way he overcame the usual injurious effects.

He says: One thing people traveling cannot very well avoid is the constant change in water and food; the stomach never has an opportunity to become accustomed to anything, and in a few years or much sooner the average traveling man becomes a hopeless dyspeptic.

For several years I suffered more or less from indigestion, sour stomach, headache, distaste for food, often no appetite, gas on the stomach and the usual unpleasant effects of imperfect digestion.

Nearly every traveling man has his favorite remedy for different troubles and I tried all of them with different results. Finally on the train between Pittsburg and Philadelphia one day, I overheard a conversation between two ladies, one who had suffered severely from indigestion and stated she had been completely cured by a remedy which she called Stuart's Dyspepsia Tablets; I remembered the conversation because it directly interested me; and at the next town I inquired at the first drug store and bought a package for fifty cents and from that day to this I have never been without them. They are pleasant tasting tablets, not a secret patent medicine but composed of vegetable essences, pure pepsin, fruit salts and Golden Seal; being in tablet form they never lose their good qualities like a liquid medicine would, but are always fresh and ready for use.

I carry a box in my pocket continually, and whenever I see any symptoms of indigestion I take one after each meal, and for a year and a half I have not lost a day by reason of poor health and can eat anything and relish what I eat; my digestion is absolutely perfect as far as I can judge from my feelings and although there may be other stomach medicines just as good as Stuart's Dyspepsia Tablets, I do not know what they are. Certainly for people who travel they are far ahead of any liquid medicine, as they are so convenient, they can be carried in the pocket and used whenever needed.

I believe they are sold by all druggists at 50 cents, and believe anyone who will try them will agree with me, that for indigestion and stomach trouble Stuart's Dyspepsia Tablets are unequalled.

Ready For War.

A Soldier Totally Disabled by Chronic Nervousness and Constipation.

RESTORED BY

Dr Miles' Nervine.

The tremendous strain of a soldier's life upon the nervous organism is enough to break down the health of an ordinary man in a few years; but for the soldier whose health is already impaired by sickness or disease of any kind, the future holds out a scant hope unless he build up and strengthen his nervous system.

When the nerves are strong the heart is strong, the lungs are strong and the brain is strong. The liver and kidneys cleanse the blood of its impurities, while the stomach and digestive organs transform the food into new, rich, red blood, full of health and strength and life. Dr. Miles' Nervine is the greatest nerve food and tonic ever offered to a suffering people. It soothes the irritated, strengthens the

weak and brings sweet rest and sleep to the worn out and exhausted.

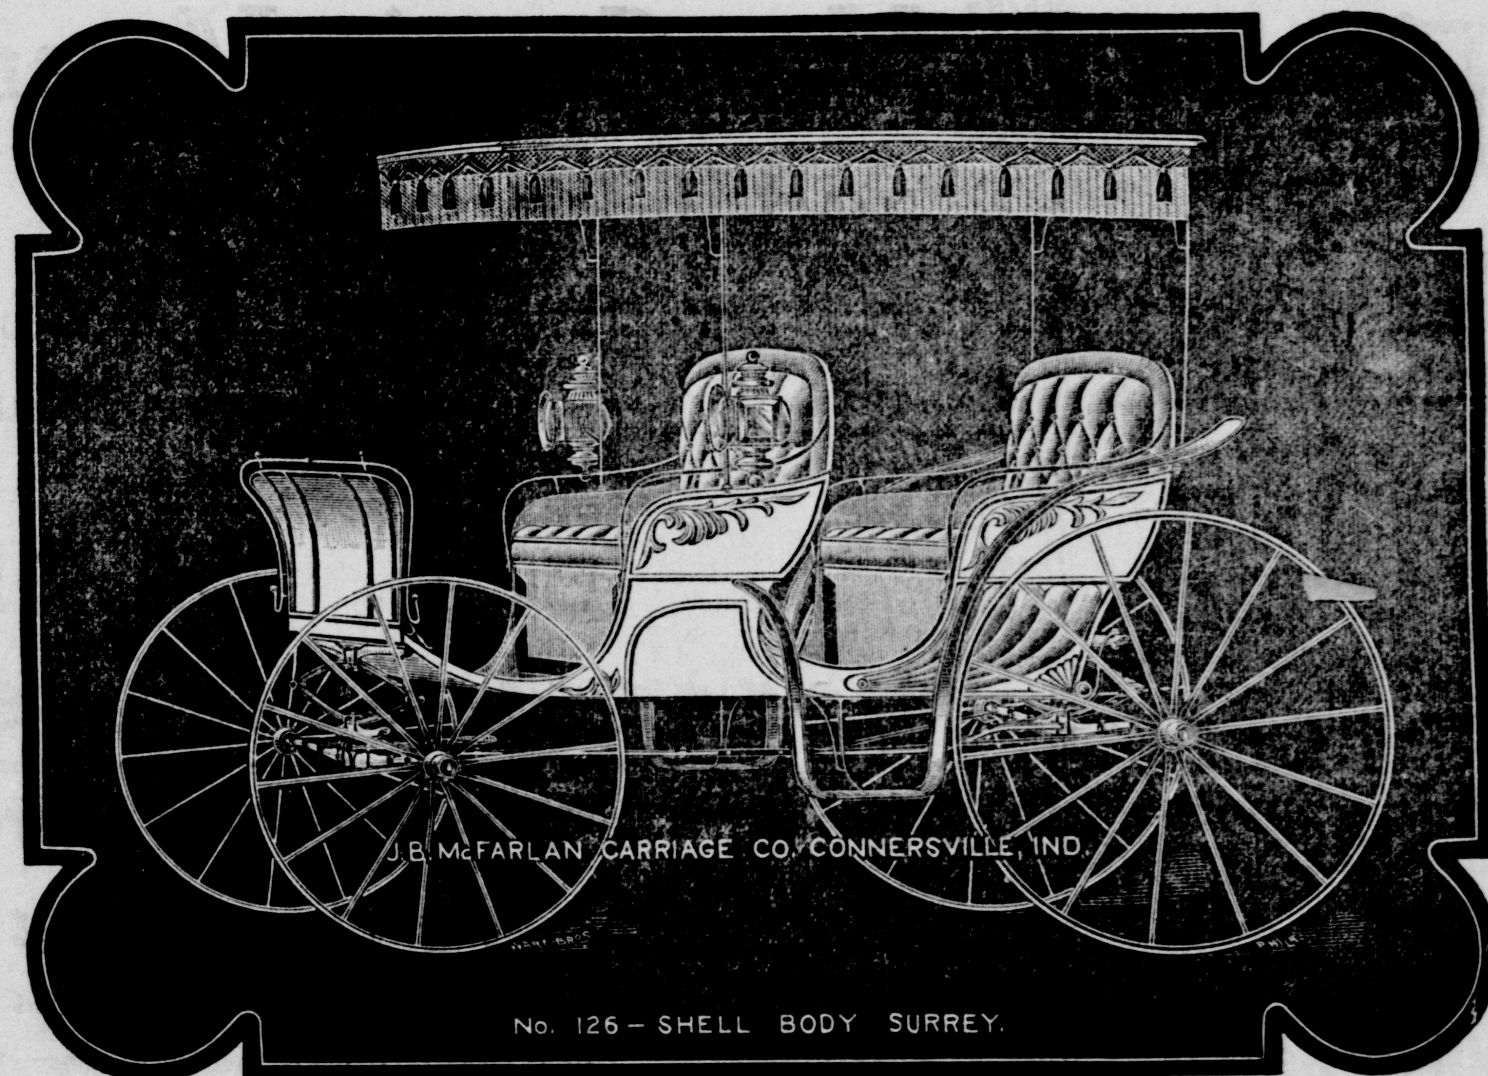

It is not necessary to be a soldier to appreciate the good qualities of Dr. Miles' Nervine. All sufferers from weak or tired nerves will find in it a help and strength in the time of need.

Mr. James Teehan is a soldier. He belongs to Co. F, 17th Inf., U. S. army, and is stationed at Columbus, Ohio. Mr. Teehan writes: "I suffered for several years with chronic constipation, and after I enlisted in the army my trouble became worse. I took nearly every advertised remedy in the market, but everything I tried seemed to go against me, until finally my bowels were in a very bad condition. My heart became greatly weakened and my nerves were completely unstrung. It

was impossible for me to rest or sleep and I was on the verge of despair when I was granted a furlough and visited my sister in Chicago. She advised me to take a course of Dr. Miles' Restorative Remedies, which had rid her of a complication of diseases. I took her advice and commenced taking Restorative Nervine and Nerve and Liver Pills. These remedies worked the most marvelous results that could be imagined and in a few weeks I was able to return to my company. That was three years ago, and my health has continued to improve until now I am well enough and strong enough for any service where duty calls."

Dr. Miles' Remedies are for sale by all druggists. Book on heart and nerves sent free. Address, Dr. Miles' Medical Co., Elkhart, Ind.

THIS DAY IN HISTORY

122—Alexander the Great died.

1142—Pierre Abelard, famous unfortunate French scholar and reformer, died; born 1079. The fame of Abelard has descended to posterity chiefly through his connection with Heloise. The story of these two, which reads like a romance, is literally true. The remains of the lovers rest side by side in the same mausoleum in the cemetery of Pere la Chaise, Paris.

1788—Bishop Heber, author of "From Greenland's Icy Mountains," born; died 1826.

1800—Robert Mercer Taliaferro Hunter, statesman, born in Essex county, Va.; died there 1897.

1816—Charlotte Bronte, author of "Jane Eyre," born; died 1855.

1836—Battle of San Jacinto; defeat and frightful slaughter of Mexicans by Texans under Sam Houston; Santa Anna captured and Texan independence secured.

1870—General John Adams Dix died in New York city; born 1798.

1885—Paul Fenimore Cooper, son of the novelist, died in Albany; born 1826.

1893—M. Jean Baptiste Leon Say, celebrated French statesman, died in Paris; born 1828.

TARIFF ISSUE IN 1900.

The Washington Post says: Because the Dingley Tariff has not prevented trouble in the cotton industry in New England the Savannah "News" concludes that "the manufacturers are losing faith in protection."

"They are beginning to understand," the "News" says, "that the tariff doctrine of the democratic party would contribute more to their prosperity than the republican doctrine of protection does."

We have seen no indications of such a change of faith as our contemporary reports. Protection can build up new industries and give prosperity to old ones, as a general rule, but it cannot make a profitable market for goods that cost the manufacturers more than the same kinds and qualities of goods made for the same consumers. The Dingley Tariff is no more responsible for the New England depression than for the unusual depth of snow in Maine this spring. And the New England cotton mill owners do not call for free trade by any means. What they are asking for is a chance to get more labor for a day's wages. But the principal interest in the article in the "News" on this subject is found in the suggestion that

If the manufacturers of the country find little or nothing in the republican doctrine of protection that is comforting, what better issue could the democratic party have in the next national campaign than that of a tariff for revenue only? What other issue would hold out to it such promising prospect for success? The silver issue was tried at the last national election under extremely favorable conditions and the result was defeat. May not the democratic leaders come to the conclusion that it would be advisable to make the tariff the leading issue in the next presidential campaign?

The chances are more than hundred to one that in spite of the defeat of 1896 the silver issue will be tried again. All things considered, the democrats and their allies find no ground for discouragement in that defeat. They polled a far greater vote than could have been deemed possible before the campaign opened. It will be remembered that up to a very short time before the Chicago convention the impression generally prevailing was that the republicans would have a walk over. The democrats and other elements of the free coinage combination hope for success next time, and they will keep silver right at the front. And the democratic contingent of that great aggregation will not put anything into the platform that will repel protectionists.

There is not much life left in the old issue of "Tariff for revenue only." What good came to the democratic party or to the country from a democratic triumph on that issue in 1892? After the experience of the democrats with Mr. Cleveland, the apostle of Tariff reform, they have no stomach for another fight on his lines. In 1900 we shall have 1896 over again, and there is a prospect of a fiercer fight than was waged in the first great battle of standards. It is well to recognize the existence of conditions that render a further struggle on this issue inevitable.

WEDDED A SOLDIER ON THE EVE OF WAR.

LIEUT. L. T. RICHARDSON AND
MISS NELLIE FARRELL.

Marriage Ceremony at Leavenworth
Followed by the Departure of The
Groom For Mobile With His Regiment—Mouat-Palmer Wedding—
Other Nuptial Kios.

Lieutenant L. T. Richardson, son of Hon. and Mrs. Hamilton Richardson, of this city, was married Monday evening to Miss Nellie Farrell, of Los Angeles, Cal. The ceremony was strictly military in its incidentals and was performed at the home of the bride's sister, Mrs. Captain Irons, at Fort Leavenworth, Kansas. Chaplain Robinson, of the regular army post, tied the nuptial knot, there being only relatives of the bride and a few intimate friends present.

Following the ceremony a reception was given the happy couple and they were showered with congratulations by friends at the post.

For some time past the engagement of Miss Farrell and Lieut. Richardson has been no secret to relatives and friends of the contracting parties but the date had not been definitely settled. Last Sunday orders were received by the Twentieth Infantry, to which Lieutenant Richardson belongs, moving them to Mobile for active service. Then it was that Lieut. Richardson and Miss Farrell decided on the time of their marriage. The ceremony was performed Monday evening and on Tuesday morning the groom left with his regiment for Mobile.

Lieut. Richardson has been stationed at Fort Leavenworth for nearly three years, going there immediately after his graduation from West Point in 1895.

Palmer-Mouat

The marriage of Miss Eloise Palmer and Mr. Malcolm O. Mouat was solemnized last evening at 7 o'clock, according to the announcement in The Gazette. The ceremony took place at the residence of the bride's mother on Madison street, which was decorated for the occasion. Rev. Arthur C. Kempton, of the Baptist church, was the officiating clergyman.

At the conclusion of the ceremony an elaborate wedding supper was served. Misses Agnes Shumway, Helen Nash, Louise Crosby, Grace Brownell, Elizabeth Palmer, Jennette Ford, May Valentine and Jennie Baker acting as entertainers.

The young couple received the congratulations of scores of friends. After a brief wedding trip to the east they will make their home in the Richardson-Bexford flats on Park Place.

The groom is one of the most prominent of the younger attorneys of Janesville, possessed of wide legal information and a mind acute and analytical. His opinions upon contested legal points are regarded by the profession as possessing great value, and his services are in request in many contentions demanding not only a full knowledge of jurisprudence but a keen analytical mind.

McCue-Thatcher

At 5:30 o'clock yesterday afternoon Miss Della McCue was united in marriage to Alfred Thatcher, Rev. J. J. Collins performing the ceremony. Miss Margaret McCue, cousin of the bride, acted as maid of honor, and John McCue, the bride's brother, was best man. The young couple received the congratulations of a large number of friends, and at once repaired to their new home at No. 359 Jackson street. Both of the parties to the nuptial contract are well known in Janesville, where they have resided for many years. The groom is in the employ of the Chicago & Northwestern Railway company.

Onare-Laskowski

At eight o'clock last evening, in Dixon, Ill., Frank K. Onare, formerly of Madison, but now of Dixon, Ill., and Miss Sarah Laskowski, of Dixon, Ill., were united in marriage. Rev. Michael Foley performed the ceremony and Miss Annie Laskowski, of this city, acted as bridesmaid, while William Beck, of Dixon, Ill., was best man. The bride is a daughter of Mr. and Mrs. Paul Laskowski of this city. Both Mr. and Mrs. Onare are possessed of a host of friends who will extend hearty congratulations. They will reside in Dixon, Ill.

MISSIONARY LIFE IN TURKEY

She was one of the speakers at the World's Congress of Representative Women in Chicago in connection with the World's Fair in 1893.

FLOWN TOWARD THE NORTHLAND.

RICHARDSON SHOE COMPANY
LEAVES JANESVILLE.

The Last of Its Effects Started for
Marquette Today—Corporation Has
Had a Prosperous Career—Causes
The Removal of Many Workmen
and Their Families.

The Richardson Shoe company, of Janesville, is a thing of the past. What was once a flourishing industry for the city left town yesterday in seven box cars on the Chicago, Milwaukee & St. Paul road for Menominee, Mich. Some time within the next few days this same factory will find itself within a new and modern building that has been built for its special benefit at a cost of several thousand dollars.

Many Workmen Go

Tomorrow morning the first of the help will leave town, while by Monday night of next week it is expected that the majority of those who are going north will have left. During the past few days a large force of men have been busily engaged removing the machinery from the South River street factory so that by noon yesterday nothing but the old office clock remained. Bookkeeper J. G. DeLong, with moistened eyes, took the faithful timer from the wall and slowly wound his way down stairs with it under his arm, which was the closing incident in what was one of Janesville's most flourishing manufacturing institutions.

Did a Flourishing Business.

The Richardson shoe factory was first started in this city in its late location about eleven years ago under the name of Richardson & Marzuff, which was soon afterward changed to Richardson & Norcross. The transfer of the factory to Menominee means the removal of several families from this city as well as young men and girls. Those who have signified their intention of going are:

ARCHIE REID & CO.

SAGASTA IS EMPHATIC.

Spanish Premier Says His Answer Will Be "War."

THE QUEEN REGENT'S SPEECH.

Eloquent Appeal to the Nation to Support the Throne in the Coming Conflict with the United States—Brilliant Scene at Madrid.

London, April 21.—According to a special dispatch from Madrid Senor Sagasta, the premier, on being asked the opinion of the cabinet as to the outlook replied: "War! War! War!"

OPENING OF THE CORTES.

Queen Regent of Spain Reads the Address from the Throne.

Madrid, April 21.—The opening of the Spanish cortes Wednesday marked the beginning of another chapter in the eventful history that Spain is now making for herself.

The scenes attending the opening of the national parliament were characterized by much regal splendor and magnificence. The wealth and beauty and chivalry of Madrid were assembled in the senate, where every available foot of space was occupied.

Large bodies of troops were drawn up outside the building, including the handsomely uniformed blue dragoons and the magnificently attired palace guards. All the members of the diplomatic corps were present in full dress.

A wild cheer at 3:30 p. m. announced the arrival of the queen regent, who was driven to the cortes palace in a state coach, escorted by a detachment of life guards. The cheering was taken up within the building as the queen regent entered, the cheers being accompanied by enthusiastic cries of "Viva la Reina," "Viva Alfonso Trece," "Viva Espana." It was a tumultuously patriotic demonstration.

The queen regent read the speech from the throne while seated with the young King Alfonso on her right and the premier, Senor Sagasta, standing near the king. At the close of her majesty's speech there was renewed cheering, after which Premier Sagasta declared the cortes opened, and the queen regent and the boy king, accompanied by the court, left the building amid another wild burst of enthusiasm.

The queen regent's speech began thus:

"The grave anxieties which saddened my mind the last time I addressed you have increased and are heightened by public uneasiness, conveying the presentiment of fresh and greater complications as a result of the turn which events in Cuba have taken. These complications were brought about by a section of the people of the United States, which, seeing that the autonomy previously offered in my message was about to be put in force, foresaw that the free manifestation of the Cuban people, through its chambers, would frustrate forever the schemes against Spanish sovereignty which have been plotted by those who, with resources and hopes sent from the neighboring coast, have fettered the suppression of the insurrection in that unhappy island.

"Should the government of the United States yield to this blind current, menaces and insult which we have hitherto been able to regard with indifference—for they were not an expression of the sentiments of the true American nation—would become intolerable provocations which would compel my government, in defense of the national dignity, to sever relations with the government of the United States.

"In this supreme crisis the sacred voice of Him who represents human justice on earth was raised in counsels of peace and prudence, to which my government had no difficulty in hearkening, strong in the consciousness of its right and calm in the strict performance of its duties.

"Spain's gratitude is due to the pope, and also to the great powers, whose action strengthens my conviction that Spain's cause deserves universal sympathy and that her conduct merits unanimous approval. It is possible, however, that an act of aggression is imminent and that not the sanctity of our rights nor the moderation of our conduct, nor the expressed wish of the Cuban people freely manifested, may serve to restrain the passions and hatred let loose against the Spanish fatherland.

"In anticipation of this critical moment, when reason and justice will have for their support only Spanish courage and the traditional energy of our people, I have hastened the assembling of the cortes; and the supreme decision of parliament will doubtless sanction the unalterable purpose of my government to defend our rights, whatsoever sacrifices may be imposed upon us in accomplishing this task.

"Thus identifying myself with the nation, I not only fulfill the oath I swore in accepting the regency, but I follow the dictates of a mother's heart, trusting to the Spanish people to gather behind my son's throne and to defend it until he is old enough to defend it himself, as well as trusting to the Spanish people to defend the honor and the territory of the nation."

The queen regent then referred to the trouble in the Philippine islands, and said:

On His Leg Twenty-seven Years Cured by

SEPTICIDE

"While in the army with the 54th and. Vols. sores came on my leg from the knee down, and much of the time since that I have been able to walk only with crutches. I have tried almost every remedy which friends suggested, but never struck the right remedy until about three weeks ago, when by the advice of our druggists, Goddard & Watson, I commenced the use of "SEPTICIDE." I took it internally and kept the sores wet with it four or five times a day. I am now happy to say, that I am entirely cured, and my leg is as sound as ever.
